

Tel. Aviv 21st. June 1976

My dear Rita & Kossu.

I am writing this letter in English so that Rita too may read it - since I am sure she hasn't progressed much in her Hebrew reading.

In case you don't know. - for the last 2 days we have been saying "good-morning" to you both every morning. You are both hanging on the walls of our apartment, and Kossu's 2 stainless steel cubes are displayed on our roof terrace. It's added a lot of colour & fun to our apartment and we are both delighted. At least our friends & visitors will see it. - instead of the basement storage where they

were kept and from where I took them. Incidentally Yari Shai - seemed a very nice fellow & seemed very glad to let me take over your things.

Here is a list of what I took. There are still 2 of Rita's large paintings on Canvas - which I couldn't get into my car. I left them with Shai - until I will find a suitable place to hang them.

At present I have in my possession the following:-

- Rita 4 silk screen paintings 44 x 37 cm.
- 2 " " " " 73 x 53 "

Koses:

2 stainless steels:

(Kosee does that ring a bell?)

5 Small Canvas (white) sketches
(2 of which have faded rather badly.)

P.S. (Lee sends her fondled love to you both).

The above list does not coincide exactly with the list you sent me. Shall I leave it until you arrive here one day, - or would you like me to ask stay about the remaining 2 items short from Rita's list.

Anyhow kids, - it's nice to have you around us. Thanks for the loan.

I am sorry that things got screwed up about my visa to Canada. As I told Lorro, - I had the air tickets in my pocket all ready to go. Too bad. I hope to make it next time & perhaps next time is your turn to visit us.

I am back at work - rushing like hell to meet the date for completing working drawings for the airport project. - in connection with which I visited New York. I have to finish by end Sept. and time is running out. Keep well my friends & let's meet soon again.

Yours
Av. A.
